CHILL AT[®] FDA Direct and **711VHP** adhesives both comply with FDA Regulation 175.125 and direct food contact surface of labels applied to poultry, dry food, and processed, frozen, dried, partial dehydrated and raw fruits and vegetables. These adhesives are often used on PLU labels. PLU labels are adhered to fresh produce and contain the PLU code, a barcode for scanning and may also include produce name, country of origin (COOL), brand name or logo.

FDA Approved Adhesives

- **711VHP** is a permanent, rubber-based adhesive with excellent tack and ultimate adhesion to a wide variety of surfaces, including edible skins of fruits and vegetables.
- **CHILL AT® FDA DIRECT** is an all temperature permanent, rubber-based adhesive that performs well in room temperature to freezer applications and can be applied to cold damp or wet surfaces, including edible skins of fruits and vegetables.
