

Pressure-Sensitive Paper & Film Cannabis Labels

Roll Label

PSA-coated papers and films in roll-to-roll form. Extensive product options, available customization, varying roll lengths and widths, and customer friendly services, like our Mactac PreciseSM Program, which offers a precise amount of material needed for small runs and limited applications.

www.mactac.com/rolllabel

Today's cannabis market is fast-growing and full of opportunity for dispensaries, growers and processors. As of 2018, nearly 50 percent of the global cannabis market was used in medical therapy or treatment for conditions such as Alzheimer's disease, anorexia, arthritis, chronic pain, epilepsy, post-traumatic stress disorder, and cancer. As with all medical and pharmaceutical products, secure, long-lasting and easy-to-read product labels are imperative for medicinal cannabis applications.

Pressure-Sensitive Paper & Film Cannabis Labels

At Mactac, our custom cannabis labeling solutions feature superior form and function - including adhesion to small diameter containers and vials - and withstand a range of environmental and other challenging conditions, such as moisture, heat, and humidity. Designed to meet labeling needs for all forms of cannabis - from solid and semi-solid to viscous and liquid - our custom labels can be used in a wide range of applications, including glass, pop-top and reversible cap vials cartons, stock glasses, bags and pouches.

	Product Number	Facestock / Adhesive / Liner	Print Methods
Tight Mandrel Hold	DTM9502NB	Top-Coated NO Added Bisphenols Direct Thermal / ST95 / 2.4 mil SCK	Direct Thermal, Flexo
	PF9502	OPTICLEAR 2 / ST95 / 2.5 SCK - 60" Web	Flexo
