

Piggyback Labelstocks

Multi-layered Label Solutions to Optimize Accuracy & Efficiency

How piggyback labels work

Remove 2-ply label from roll or sheet & place on location #1

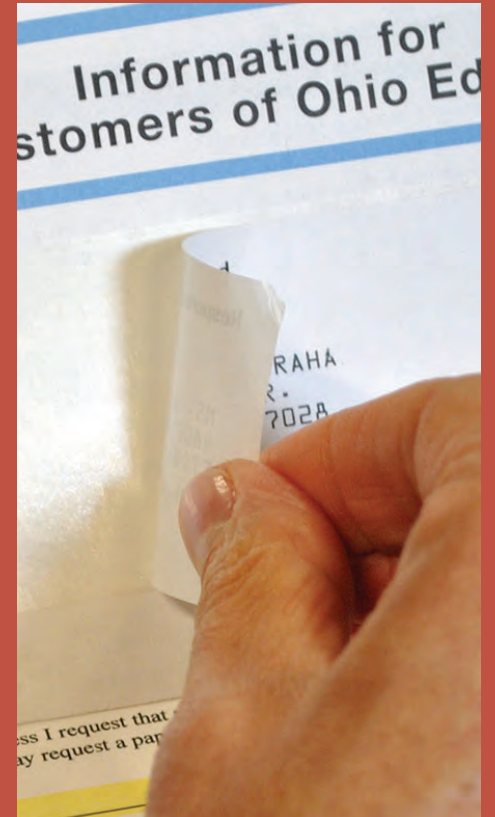

1

Remove top ply label & place on location #2

2

3

Piggyback labels are smart, multi-layer label solutions uniquely designed for more efficient operations. Each construction features a removable top label paired with a permanent bottom layer. The top label peels away cleanly and can be reapplied elsewhere, while the base layer remains securely adhered to the original surface. The top label can be smaller than the base layer or matched in size.

Engineered to perform across paper, plastic, cardboard, and metal, Piggyback labels optimize processes across a wide range of applications. Whether used to reveal additional instructions, provide duplicate documentation, support barcode scanning for oversized or heavy items, or streamline tracking and inventory processes, Mactac® Piggyback labels help keep workflows running smoothly.

Piggyback Labelstocks

Piggyback Constructed Labels Deliver More.

Mactac's Piggyback products are designed to build ease and effectiveness into your processes. The result? Fewer errors, faster workflows, and consistent data wherever it's needed.

Each piggyback constructed label features:

- A removable top label for secondary use
- A permanent base layer that stays put

Ideal for applications:

- Healthcare: Medical and pharmaceutical documentation
- Warehousing: Inventory control and tracking
- Industrial: Regulatory and compliance labeling
- Retail: Pricing and promotion management

Available in Direct Thermal, Thermal Transfer, and Semi-gloss Litho, with a variety of adhesives, Mactac® Piggyback labels work as hard as your operation does.

Product Number	Construction	Adhesive	Adhesive Type	Liner	Trim	Precise*	Approx. Wt MMSI	Direct Thermal	Thermal	UV Inkjet	Impact	Flexo / Offset
TRANSLABEL® 50# EDP face stock in a piggyback construction.												
EDP9502PB	1st ply	ST-95	Acrylic, Permanent	2.4 SCK	Custom		207#					
	2nd ply	ST-95	Acrylic, Permanent	3.2 SCK								
TRANSLABEL Medium sensitivity direct thermal paper in a piggyback construction.												
DTM9502PB	1st ply	ST-95	Acrylic, Permanent	2.4 SCK	78"	■		■				
	2nd ply	ST-95	Acrylic, Permanent	3.2 SCK								
TRANSLABEL OPTISCAN® 2C thermal transfer paper in a piggyback construction.												
TT9502PB	1st ply	ST-95	Acrylic, Permanent	2.4 SCK	78"	■			■			
	2nd ply	ST-95	Acrylic, Permanent	3.2 SCK								
TT2602PB	1st ply	640-AT	All-temp Permanent	2.4 SCK	Custom				■			
	2nd ply	640-AT	All-temp Permanent	2.4 SCK								
ScanTherm™ Ultra Piggyback Standard sensitivity, ultra-low abrasion, general purpose direct thermal paper designed to cover a broad range of applications, including industrial and weigh scale applications. Topcoated for resistance to water, oil, and other chemicals, and offers good heat and light resistance.												
49734NB	1st ply	BP-52	Acrylic, Permanent	2.4 SCK	60"	■		■				
	2nd ply	BP-52	Acrylic, Permanent	2.4 SCK								
45# CTT Piggyback Piggyback construction with a premium, coated sheet that has excellent thermal transfer imaging with a wide range of ribbons, and superior flexo printability.												
41808	1st ply	BP-52	Acrylic, Permanent	2.4 SCK	54"	■			■			
	2nd ply	BP-52	Acrylic, Permanent	2.4 SCK								
58# Primeglos® Bright white, premium semi-gloss litho that demonstrates excellent print characteristics when printed using flexo, offset, or letterpress.												
48579	1st ply	BP-52	Acrylic, Permanent	2.4 SCK	Custom							■
	2nd ply	BP-52	Acrylic, Permanent	3.2 SCK
