

Walls, Signage & Decals

Product Guide

Roodle Scored features an easy-to-remove, printable scored liner, a new addition to the innovative pressure-sensitive adhesive (PSA) Scored Liner product line.

Walls, Signage & Decals

Product Guide

What is Roodle[®] Scored?

Roodle Scored has the same aggressive removable adhesive found in Roodle which is ideal for indoor or outdoor* wall graphic applications. The film is a 5.5 mil matte white calendared PVC that is printable with UV, latex, and solvent print methods. The scored liner is a 78# white Kraft liner that is UV and latex printable. The back score is 2.5-inches apart and is designed to make the installation easier and allow a seamless, hassle-free liner removal.

The scored, printable liner offers several benefits, including:

- Increased branding opportunities and project creativity
- More options for print service providers (PSPs) to meet the needs of end users
- Easy graphic installation using the hinge method, even for new/inexperienced installers
- Roodle Scored has an outdoor durability of 4 years, with clean removability up to 2 years.
- It is ideal for indoor wall posters and murals on flat painted drywall or other smooth surfaces. It can also be used for decals, stickers, point-of-sale/point-of-purchase displays, and window graphics.
