Confidence in our consumables is more important than ever. Since the pandemic began, food delivery services have skyrocketed. This includes third party food delivery services, such as Uber Eats and DoorDash. Much like the recently passed California Assembly Bill 3336, many states are now mandating that all prepared food options be closed with a label to ensure consumer safety and sanitation.

Roll Label Products

Spinnaker offers a variety of labelstock options that adhere well to common food service packaging, including plastic clam shells, polystyrene, and cardboard containers, as well as various types of plastic and paper bags.

Commonly used options include:

Semi Gloss Paper

Thermal Transfer Paper

Direct Thermal Paper: ScanTherm™ Industrial offers higher heat resistance and chemical resistance, such as hand sanitizer, compared to standard DT products)

For true tamper evident properties, we recommend:

SafeTE™ C1S Paper

SafeTE™ C1S Cover-up Paper

SafeTE™ Synthetic Film

SafeTE™ Cover-up Film

SafeTE™ White Void Film

SafeTE™ Silver Void Film

These are offered with a variety of adhesives depending on your application.
